MFV700 7" Wireless Photo/Video Frame with DECT Camera

Enhancing your memories, while you make new ones. The digital photo frame with Video-in-Picture is more than just a photo frame. It's a multimedia trip down memory lane, and with the addition of the wireless camera and live video feed, it's also a way of protecting what matters most. The DECT camera with the VIP frame's wireless technology automatically link together and then you're witnessing crystal clear video. The VIP Frame is your past, present and your future - all in one place.
